1. On 24 February and 4 March 1954, source entered the Goerden Landesanstalt (mental hospital) near Brandenburg and made a sketch of the installation. Inside the barracks area, air force sentries were posted at three sites and radio trucks as well as a radio mast, about 20 meters high, were observed. The radio mast was no longer observed there on 4 March.

The diagram illustrates a rectangular field divided into two main sections. The left section contains a 3x3 grid of rectangular plots, each labeled '11'. Below this grid is a larger rectangular plot labeled '16'. The right section contains several rectangular plots labeled '12', '13', '14', '15', and '16'. A dashed line with arrows indicates a path starting from a point in the center of the right section, moving left, then up, then right, and finally down. A scale bar at the bottom left of the right section is labeled '2.2'.
